MapToons.com

This year, the Hicksville Chamber of Commerce is thrilled to present this beautiful community map, created in partnership with over 100 local businesses and organizations that generously supported the project. We are proud of the role we play in fostering growth and transformation in Hicksville. Our initiatives, like the annual street fair, as well as the banners and holiday wreath program, have helped bring even more joy and vibrancy to our town. The addition of colorful decorations has enhanced Hicksville's holiday tree lighting celebration, making it even more special for our residents and visitors alike.

Looking ahead, we are excited about the new developments and changes on the horizon. The future of Hicksville is bright, and we can't wait to see what's to come in the next few years. Thank you to all the businesses and organizations that contributed to the 2025 Hicksville MapToon!

WHY SHOP HICKSVILLE?

Get Better Service: In a local business, you know the person behind the counter and they know you. They have a deep understanding of the products they're selling, and they take time to serve their customers.

Shopping Locally Retains Our Communities: People don't like losing businesses and services in their town, but don't equate this to how they spend their money. Businesses will only survive if customers spend locally, so if you want a vibrant town where people can socialize as well as shop--shop locally!

Local Economic Benefits: Keeping your money in your local economy supports local jobs, funds more local services through sales tax, and invests in neighborhood improvement and development.

Invest in the Community: Most local businesses are owned by people who live here, work here, and are invested in the community with much more than just their dollars.

Local Businesses are for Everyone: Most people can get to their local businesses easily and this is especially important for the elderly and young people and those without transportation.

Community Well-Being: Locally owned businesses build strong neighborhoods by sustaining communities, linking neighbors, and by contributing more to local causes.

Shopping Locally Keeps Real Estate More Valuable: Supporting your local commerce keeps store fronts full which in turn makes the community more desirable.
